Health Career Connections
Workforce Development Board
The Chartis Group
Aledade

The SLO Healthcare Workforce Partnership was launched in September 2023 to address the critical shortage of healthcare professionals in physical, behavioral, and oral health in San Luis Obispo County.

This collaborative Partnership is composed of 20 organizations representing healthcare, education, and workforce development.

The Mission:

To ensure universal, equitable access to high quality healthcare in San Luis Obispo County by investing in long-term solutions to strengthen and diversify the County's physical, behavioral, and oral health workforce and implementing a sustainable model that responds to existing and emerging health care needs.
